From 6:15 to 8:30 pm

PLACE

Real Colegio Complutense
26 Trowbridge Street
Cambridge, MA 02138

SPONSORS

FUNDACIÓN
RAMÓN ARECES

In Collaboration with

“Allergy to foods and medications in the XXI century: a cure is on sight”

Maria C. Castells, M.D., Ph.D.

Director of Drug Hypersensitivity and Desensitization Center and Director of the Allergy Immunology Training Program at Brigham and Women's Hospital at Harvard Medical School

Desensitization provides rapid help to all patients that have severe allergic. This free public seminar will provide knowledge on biological and chemotherapy allergens, the mechanisms that lead to allergic reactions, and the cutting edge desensitization programs that improve survival and increased quality-of-life for patients. The program is open to professionals and members of the general public with either an understanding of medicine or an interest in science and allergies.

Followed by a Reception

Registration is required. Please RSVP at <https://ecusabostonoct2015.eventbrite.com>

This program will be in English and refreshments will be served.
